Project Spotlight: Christenbury Village | Concord, NC

Christenbury Village is a mixed-use development bringing grocery, office, retail and residential to the area. UDP designed the amenity area for the apartments which includes a pool, patio, and outdoor grilling area. Throughout all four phases, the UDP team provided consistent and diligent communication with the client, various reviewers and between multiple architects and contractors. UDP also created separate phasing documents for the contractors to provide clear direction to all three site contractors.

MARCH URBY WINNER: ALEXA RUSSELL + ETHAN GARNER
